BOTOX AND DERMAL FILLERS

Botox®

Botox® involves specifically targeted injections into the muscles, causing them to relax, leaving a natural softened appearance. It prevents the formation of wrinkles for between 4-6 months.

Prices are according to the number of 'Areas' treated. The 3 main treatable Areas are the Forehead, Frown Lines (between the eyebrows) and Crow's Feet. 1 area from £185, 2 areas from £245, 3 areas from £275

Dermal Fillers

Dermal fillers are clear gels which contain hyaluronic acid, a naturally occurring substance found within the skin that is used to plump out deeper lines and wrinkles. The treatment involves the injection of the gel directly into the wrinkle contours. After treatment, lines and wrinkles are immediately reduced. Results last between 6-12 months, with repeat treatments offering longer lasting results.

Dermal fillers are priced by the syringe. Prices start from £245 per syringe (dependent on size and product used).

Dr Freccia Williams (BMedSci (Hons) BDS), is certified to carry out botox and dermal filler treatments, and will be running her facial aesthetic clinic from FACE every Tuesday morning.
